Citizenship Lunch 2020

## Purpose

Students at CVMS need a clear, well defined way to make up citizenship grades in classes and a clear set of consequences for lower citizenship. This change in policy will help to address both concerns.

## Student Requirements for Citizenship Lunch

- Any student who currently has a U in citizenship in any of their classes
- 2 N's in citizenship will count as a U

## Teacher Requirements for Citizenship Lunch

- Teachers will create a list of requirements for students to complete to make up an N and a U in citizenship.
  - Requirements should be things that students can complete on their own. If they have assignments to make up, they need to have those assignments *before* lunch. Aides do not have the time or the resources to track down missing assignments once students are there.
  - Requirements should be meaningful
  - Unless the requirements are assignments to make up, they may not be counted toward the student's grade per Board Policy JK - Student Discipline: "Lowering of grades or reduction of credit for misconduct, absence, or tardiness shall not be done."
- Teachers will inform parents of students whose citizenship drops to an N or a U via phone call or email

## Process

- Teachers will excuse citizenship lunch students at 11:35 to go eat lunch
- Students will be escorted to citizenship lunch at 11:45 by the assigned aide and principal
- Students will be given the requirements from their teacher to raise their citizenship grade
- Students will continue to attend citizenship lunch until they no longer meet the requirements to be there

## Refusal

- Students who refuse to attend citizenship lunch will be given in-school suspension for 1 day
